WITH DISC  
SUCTION

## Applications

- For micro-finish of lacquers, paints and coated surfaces prior to final finishes, plus solid natural and synthetic surfaces like marble and granite.
- For polishing painted surfaces.
- For high-gloss finishes in the automotive, furniture and musical instrument industries.

## Characteristics

- Easily adapts to curved surfaces and rounded contours.  
Excellent fine-finish results on high-durability surfaces;  
➤ smooth and uniform polish patterns for high-quality finishes.
- Anchoring System: **GRIPIT®**.
