EXTRA COARSE / COARSE / MEDIUM / FINE / EXTRA FINE
HEAVY POLISHING / INTERMEDIATE FINISHING / FINAL FINISHING

Applications

- For intermediate polishing and finishing operations in the metalworking industry, for metal surfaces (black foil, carbon steel, tempered steel, etc.).
- For intermediate and heavy sanding ferrous and nonferrous metals, either in new work materials or for removing, repairing or renovating old paint, for cleaning and renovating canvas, furniture and even on metal objects.
- For restoring shine or removing rust on metal.
- Always be sure to clean the surface before and after sanding.
- Also functional on wood and nonferrous metals.

Characteristics

- Its superior abrasive qualities optimize polishing action.
- Rigid fabric backings extend product life.
