Applications

- For intermediate sanding operations for cleaning applications on metal, intermediate and fine polishing, for polishing small-diameter pipes and hard-to-reach areas.
- Ideal for sanding specific points on molds and tubular pieces of various diameters.
- For detailed curved pieces with canvas folds such as shingles, furniture pieces and metal containers.
- Adaptable to irregular metal parts that require smoothness and flexibility in finishing operations, die-cut molds and toned pieces.

Characteristics

- Flexible abrasives with long durability and high resistance that produce excellent results.
- Adjustable to uneven, round or sharp surfaces.
