## Applications

- For conventional use in factories and workshops for cleaning or preparing the substrates. Metalworking and maintenance industry; cleaning and preparing nonferrous surfaces like copper, aluminum, Zamak, plastics, fiberglass, etc.
- Auto body shops: sanding clay and putty, universal primers and fillers, plastics, fiberglass, lacquers and clear coats.
- Home projects: metal cleaning, sanding plastics, glass, aluminum, resins, ceramics, paint, lacquer, varnish.
- Perfect for home improvement, repair and maintenance, and also all types of school projects.

## Characteristics

- Its high resistance and sanding power facilitate high-demand operations.
- Waterproof paper backing with non-slip properties that allow dry and wet operations.
- Its closed structure ensures quick sanding and a long shelf life.
- Silicon Carbide achieves a unique finish in wet applications.
