MICRO FINE / MICRO FINISHES

Applications

- B-99 Plus, ideal sanding for auto repainting operations.
- Pre-polishing operations in auto repainting, as well as surface preparation.
- Excellent results in clear coats for surface correction.

Characteristics

- Silicon Carbide provides superior cutting power that reduces work times. Its high resistance and sanding power facilitates operations.
- Defined yellow paper backing is waterproof with anti-slip properties that allows dry, wet and semi-wet work.
- Highly flexible backing that easily adapts to any surface. More attractive packaging image.
