COARSE / MEDIUM / FINE / EXTRA FINE
HEAVY GRINDING / INTERMEDIATE GRINDING / FINISHING

Applications

- For intermediate sanding and machine finishing of bare and treated wood.
- For high-quality finishes on hard woods, such as oak, which is a hard surface of fine porosity, lacquers, paints and nonferrous metals.
- Recommended product for working on quality furniture, such as floors or parquets, decorative locks and tabletops.
- Basic carpentry: baseboards, moldings, doors, windows, fences, wooden beams, and even shipbuilding and construction.
- For finishing operations that require low or intermediate pressures in the tannery industry.

Characteristics

- Optimal performance under light and intermediate operating pressures.
- Aggressive sanding action.
- Open structure prevents clogging and ensures a long shelf life.
